PEST CONTROL INDUSTRY – URBAN ENTOMOLOGIST AND CONSULTANT

Background includes a successful record of experience, knowledge, and accomplishments since 2003 in the pest control industry, first as an IPM Practitioner and then as a Research & Development Scientist and Regulatory Affairs Manager. Background is further supported by a Ph.D. in Entomology, numerous academic and outreach publications, entomological research projects, and hundreds of presentations at regional, national, and worldwide industry conferences. Capable of providing critical support by providing a diverse range of consulting services related to:

- Scientific Presentations on Pest Management
 - On-Site Analysis of Pest Infestations
 - Product Testing & Protocol Design/Implementation
 - GLP Auditing of Studies & Study Data
 - Continuing Education Courses on Pest Management
 - Technical Support For Implementation of Studies
 - Writing/Editing EPA Formatted Study Reports/Documents
 - Product Safety & Efficacy Data (GLP Studies)
-
-

EDUCATION

Ph.D. Entomology (2003) - CLEMSON UNIVERSITY, Clemson, SC

M.S. Entomology (1997) - CLEMSON UNIVERSITY, Clemson, SC

B.S. Biology (1993) - URSINUS COLLEGE, Collegeville, PA

PROFESSIONAL EXPERIENCE

JAK CONSULTING SERVICES, Knoxville, TN

05/2015-current

Sole Proprietor of a Woman-Owned Business: Launched a consulting firm focused on pesticide manufacturers and applicators. Promotes real-world Integrated Pest Management (IPM) solutions through research and education.

NISUS CORPORATION, Rockford, TN

2003 - 04/2015

Regulatory Affairs Manager (2008 - 04/2015). Promoted into this newly created role and was assigned leadership responsibility for developing and implementing the regulatory affairs functions that eliminated most of the company's dependence on outside consultants for regulatory affairs. Held additional role assisting in product research and development as well as selection/management of outside laboratory services involving GLP practices. Duties included:

- Product Testing & Development
- Quality Control
- Product Registration Expansion
- EPA Registration Approval
- Registration Management/Monitoring
- Marketing & Advertising Compliance
- Contract Laboratory Selection/Oversight
- Patent/Trademark Protection
- Contract Administration
- Technical Product Support
- Public Speaking & CEU Training

Research & Development Scientist (2003 - 2008). Started with the company in this R&D scientist role involved in product research, development, reformulations, and assisting with securing patents. Duties included:

- Product Development
- Environmental Compliance
- Patent Support

CLEMSON UNIVERSITY, Clemson, SC **1995-2003**
Graduate Student Assistant Positions-- PESTICIDE RESEARCH AND PLANT PROBLEM CLINIC. Worked directly with taxonomist to identify plant pests, describe economic importance of plant pests, and recommend control measures. Conducted pesticide testing for turf and ornamental products.

LONGWOOD GARDENS, Kennett Square, PA **1994-1995**
IPM Program Paid Intern - Assisted with implementing and supporting IPM practices for one of the world's premier horticultural display gardens. Obtained pesticide applicator's license. Identified and educated employees about potential and existing pests/diseases, conducted research studies and developed an entomology public education program.

VILLANOVA UNIVERSITY ARBORETUM, Villanova, PA **1993**
IPM Program Paid Intern - Identified plant pests/diseases, advised and educated supervisors/employees on plant pests/diseases, and developed IPM protocol for future application.

EXTENSION & CEU PRESENTATIONS

Created and delivered numerous presentations for industry professionals at regional and national conferences covering a diverse range of topics related to management and control of flies, cockroaches, bed bugs, ants, spiders, rodents, mold/fungi, perimeter pests, wood destroying beetles and borate wood treatments/application. Comprehensive list is available upon request.
